Proposal for new lineage within B.1

Description

Sub-lineage of: B.1
Earliest sequence: 2020-12-15 (England/CAMC-C769B3/2020)
Most recent sequence: 2021-01-28 (England/MILK-119FD0B/2021)
Countries circulating: England (28), Nigeria (7), USA (7), France (5), Canada (4), Ghana (4), Japan (4), Jordan (2), Belgium (1), Italy (1), Spain (1)

Characterised by spike mutations: E484K, Q677H, F888L, 69-70 deletion, 144 deletion and 9 nucleotide mutation in nsp6 (as seen in B.1.1.7, B.1.351, P.1).

Genomes
